DEMOCRACY IN SPACE — Rules

Two players · 15–45 minutes. Based on a feature of the US Electoral College and most parliamentary systems, this is area majority culled to its essence. A gentle opening suddenly transforms into a nail-biting finish. The unique tie-break condition needs to be kept in the back of your mind, but you might not know for a while if you'll need it this time.

Setup

Each player has 12 satellites (values 1–4, 3 of each). Player 1 (red) places on the North and South rim, Player 2 (blue) on the East and West rim. 6 satellites each go randomly on the middle 6 cells of each rim. Values 1 and 2 are shifted one cell inward.

Movement

Satellites move in 8 directions. They can jump over others, but not onto occupied cells. **Normal move:** up to [value] cells. **Connection move:** exactly [value] cells.

Connections

Orthogonally adjacent satellites of different colors are ALWAYS connected and locked.

Rim Rule

Connections are only allowed once at least one rim is completely free of satellites.

Colonies

3+ connected satellites = colony. Higher total value controls. Max 6 per colony (crowned). Two colonies can never merge.

Displacement

You may place your satellite next to one of your own connected satellites — even if an unconnected opposing satellite stands there that could extend a colony (3+). In that case you displace the opposing satellite to a free cell (max 2 cells, straight line) and take its place.

Orange-highlighted cells show displacement opportunities.

Adjacency

Two connected satellites of the same color may not be orthogonally adjacent.

End Game

Instant end:

as soon as 23 satellites in total are connected, the game ends immediately.

Grace moves:

the first player to connect all 12 of their own satellites is finished and stops moving. Only the other player carries on — they get exactly

3 grace moves

, counted down by the badge at the top. After the last one the game ends and is scored.

Scoring

Most colonies controlled wins. Tiebreak: whoever controls the colony with the lowest total value.
